Work Experience & Trainings

United Bank Limited (UBL) **June 2025 – Present**
Science & Engineering Associate – Innovation & Creative Tech (IT) *Islamabad, Pakistan*

- Driving digital innovation initiatives across UBL's IT ecosystem as part of the **Science & Engineering Associate** program, operating within an **Agile delivery model** using **Jira** and **Confluence** for sprint planning, backlog management, and documentation.
- Serving on digital product initiatives within the **Innovation & Creative Tech** department, owning feature requirements, acceptance criteria, and stakeholder alignment across delivery squads.
- Leading **squad mapping and squad tracking** across product areas, ensuring clear ownership, visibility of delivery progress, and cross-functional alignment within the Agile squad structure.
- Supporting automation rollouts, pilot testing, and internal process digitization aligned with UBL's transformation vision; contributing to release planning and go-live coordination across multiple digital product areas.

Ezdaan Associates SMC (Pvt) Ltd **November 2024 – May 2025**
Information Technology Officer *Islamabad, Pakistan*

- Managed IT infrastructure, hardware/software setup, and network troubleshooting.
- Ensured data backup and smooth technical operations across the office.

Actim Solutions (Pvt) Ltd **June 2024 – October 2024**
MERN Stack Web Development *Islamabad, Pakistan*

- **Developed and maintained responsive web applications** using **HTML, CSS, JavaScript, and React.js**, enhancing user interface and user experience across multiple platforms.
- **Built and integrated RESTful APIs** using **Node.js and Express.js**, ensuring seamless communication between the frontend and backend.
- **Optimized database operations** with **MySQL and MongoDB**, improving data retrieval efficiency by up to 30%.
- **Collaborated in an Agile environment** with cross-functional teams to deliver projects, utilizing tools like **GitHub** for version control and **JIRA** for project management.

ISMMART Group of Industries (Pvt) Ltd **June 2023 – August 2023**
Frontend Web Developer Internee *Islamabad, Pakistan*

- **Designed and implemented responsive web pages** using **HTML, CSS, and JavaScript**, improving visual appeal and usability for end-users.
- **Utilized front-end frameworks** like **Tailwind CSS** to ensure mobile-friendly and cross-browser compatible designs.
- **Collaborated with senior developers** to create and maintain dynamic components with **React.js**, enhancing the website's interactivity.
- **Optimized website performance** by minimizing **JavaScript** and **CSS** files, leading to a 20% reduction in page load

time.

Projects

- **Portfolio Website:** Designed and developed a personal portfolio showcasing web development skills using **HTML, CSS, JavaScript, and React.js**.
- **Timesheet Automation Tool:** Developed a Python-based automation script at UBL to clean, merge, and summarize partner timesheet data across multiple teams. Implemented a Tkinter GUI for assigning hourly rates and calculating costs, generating Excel-compatible output for reporting dashboards and reducing manual effort significantly.
- **Arabic Localization – UBL UAE Website:** End-to-end delivery of **Arabic language translation and RTL layout support** across UBL's UAE digital web pages. Defined requirements, managed the delivery backlog in Jira, and coordinated with the development squad to ensure compliance with regional language requirements and a seamless bilingual user experience.
- **QR Code Verification – CBS Generated Letters:** Implementation of a **QR code-based document verification system** on CBS-generated letters at UBL. Gathered requirements, authored user stories in Confluence, and tracked squad delivery via Jira to enable instant digital authenticity checks, reducing fraud risk and improving document trust across bank operations.
- **Branvia (Personal Project):** Built and launched a full-stack **e-commerce platform** using the **MERN stack** (MongoDB, Express.js, React.js, Node.js), featuring product listings for premium brand replicas. Implemented cart functionality, user authentication, and a responsive UI using Tailwind CSS.

Certifications

- **Cyber Threat Management** - Cisco (Issued May 2024)
- **Computer Hardware Basics** - Cisco (Issued March 2024)
- **Java Programming: Solving Problems with Software**- Coursera Project Network (Issued March 2024)
- **Introduction to Cybersecurity** - Cisco (Issued March 2024)
- **Full Stack Web Development** – NAVTTC (Issued October 2024)
- **Frontend Web Developer** - ISMMART (Issued September 2023)
